All students take out library books for a one week duration. However, if a book is not finished after that week, students can renew the book for another

week (students must bring their book back to the school to renew it). If the book is not returned on the due date, the student will receive an overdue notice. After three (3) notices, if the book is still not returned, you will receive a bill for the replacement cost of the book. Likewise, no more books will be issued to that student unless the book is returned or payment is made. We ask you to pay by cash, in case the book resurfaces, your money will be refunded.

It is important to assist your child in returning their library books on their designated day. The library is full of exciting and interesting books – and we would like nothing more than to have each student take advantage of our fine collection of books!
